

Baptism Policy

No person shall be refused baptism.

The parents of the child(ren), or in the case of an adult the person seeking baptism, must meet with the minister prior to the date to discuss the meaning of baptism.

Baptism is normally expected to take place during a regular Sunday worship service although special circumstances will be considered by the minister.

Since this is a service of worship, no flash pictures are to be taken during the service.

The minister will be happy to arrange for picture taking after the service.

There is no fee for baptism.
